

Simple & convenient facial mask

We are all different. The Respireo Primo series is a range of masks for ventilation that has been specifically designed to fit each need of the patients and adapt to each morphology.

Simple & convenient, Respireo Primo F is a full face mask with adjustment dial and high ease of use. It comes Vented and Non Vented and has been specially conceived to ensure your patients' maximum comfort. It is also recommended for patients with high therapy pressures, mouth breathing or with difficulty to handle things, thanks to the intuitive fastening clip and a simple assembly.

Respireo

Primo F

Dual wall cushion

- Ensuring stability and airtightness with a great comfort thanks to the thin external lip
- Easy assembly with only 2 components

Well distributed and adjustable forehead support

- Adjusting dial to find the perfect fitting with the forehead inclination
- Large silicone pad to distribute the pressure points

"V" shaped clips

- Flared clip system for an intuitive fitting and a quick release system if need be

Diffuse and silent vent

Respireo Primo F is also available in **non vented** version for patients with a valve ventilation.
