

## Simple & Ergonomic pillow mask

We are all different. The Respireo Primo series is a range of masks for ventilation that has been **specifically designed to fit each need of the patients and adapt to each morphology.**

Simple & Ergonomic, **Respireo Primo P** is a pillow mask combining silence and ease of use in order to quickly win the compliance of the patients.

Available in vented and non vented versions, it is the reference mask for all patients willing to keep their liberty and autonomy in their daily activities.

It is also recommended for patients inconvenienced by forehead support, contact on the nasal bridge or suffering from claustrophobia.

# Respireo

## Primo P

### Adaptable tubing

- Ball joint system for a rotation at 360°
- Adjustable fixation: over the head, on the lateral sides or free downwards
- Clear visual field

### Ergonomic cushion

- Airtight and fitting the nostrils thanks to the large sides and the "bellows" technology
- Easy assembly of the cushion with a visual and tactile poka-yoke

### Stable headgear

- Designed to ensure settings, comfort and stability without any risk of sliding back of the head
- Two levels of adjustments

### Silent and diffuse leak

Respireo Primo P P is also available in **non vented version** for patients ventilated with valve ventilators.
